I pull her into.about little windmills?".I will?when the authors keep politics out of their stories. But they never do; in fact, it seems absolutely impossible to write anything without immediately making all sorts of assumptions about what human nature is, what good and bad behavior consists of, what men ought to be, what women ought to be, which states of mind and character are valuable, which are the opposite, and so on. Once fiction gets beyond the level of minimal technical competence, a reviewer must address these judgments of value. Generally, readers don't notice the presence of familiar value judgments in stories, but do notice (and object to) unfamiliar ones as "political." Hence arises the insistence (in itself a very vehement, political judgment) that art and politics have nothing to do with one another, that artists ought to be "above" politics, and that a critic making political comments about fiction is importing something foreign into an essentially neutral area. But if "politics" means the relations of power that obtain between groups of people, and the way these are concretely embodied in personal relations, social institutions, and received ideas (among which is the idea that art ought not to be political), then such neutrality simply doesn't exist Fiction which isn't openly polemical or didactic is nonetheless chock-full of politics. If beauty in fiction bears any relation to truth (as Matthew Arnold thought), then the human (including social and political) truth of a piece of fiction matters, for aesthetic reasons. To apply rigid, stupid, narrow, political standards to fiction is bad because the standards are rigid, stupid, and narrow, not because they are political. For an example of (to my mind) profound, searching, brilliant, political criticism, see Jean-Paul Sartre's Saint Genet..because the promise held out by heroic fantasy?the promise of escape into a wonderful Other.During the week of September 23, seven thousand Ozos were shipped to domestic and Canadian addresses supplied by Smith: five hundred to electronics manufacturers and suppliers, six thousand, thirty to a carton, marked "On Consignment," to TV outlets in major cities, and the rest to private citizens chosen at random. The instruction booklets were in sealed envelopes packed with each device. Three thousand more went to Europe, South and Central America, and the Middle East..He was huddled on his back with his elbows propped up by the wall and the bed. "Oh, Birdie," I groaned, "you know there's no such thing as a killer type. Almost anyone will loll with a good enough reason.". "This way," she said, beckoning them into a tunnel formed from more strips of plastic. They twisted around through a random maze, going through more gates that opened when they neared them, sometimes getting on their knees when the clearance lowered. They heard the sound of children's voices..That, in a nutshell, was Barry's problem. At last he had his license and could talk to anyone he wanted to talk to, but he didn't know what to talk about. He had no ideas of his own. He agreed with anything anyone said. The skit had been both essentially truthful and unjustifiably cruel. Too much sunbathing probably was dangerous. Porpoises probably were as smart as people.."Believe me," said the grey man, "I have put a little something m your eggs and sausages that will.freeway, and there's ten or fifteen miles of dirt road before the pavement picks up again nearly to.Barry shook his head. ?Twenty different ideas?
